Overtime available

Our vision for MJP

We're building a unique electrical company in Bristol, Bath and South Wales. A team that is renowned for responsive communication, the high standard of our workmanship, and the reliability of our people. We're ambitious and we're growing the business while retaining our reputation for excellence.

Your part in our vision

You'll be an integral part of the business. Without you and your skills, there is no company, let alone the expansion we have in mind. The Solar PV service is a new development for us, and you have the chance to join our team at this key stage in the business. You'll shape the company's reputation as the go-to company for solar and battery storage installation in the region. Your day-to-day duties will include

Solar specialism

- Installing new solar PV systems
- Installing new battery storage solutions
- Supervising less experienced solar electricians to carry out installations

While you will lead on solar work, we would also like you to cover on electrical issues in homes and businesses, when required.

Qualifications you need for the role

- 1+ years' experience in solar PV and battery storage installation
- 3+ years' experience in domestic and commercial electrical services
- Current Level 3 Award in the Requirements for Electrical Installations (18th Edition)
- City and Guilds 236 parts 1 and 2
- UK Driving Licence (no more than 6 points)
- DBS Check required

Personal attributes

- Believe in our Core Values
- High quality workmanship: Completing work to the highest standard and promptly fixing any issues.
- Positive work ethic: Approaching jobs with a can-do attitude and willingness to help other team members.
- Team Player

- Reliability: Doing what you say you'll do and turning up on time.
- Willing to learn: Being open and curious to developing your skill set.
- Good communication and interpersonal skills
- Strong troubleshooting and problem-solving skills
- Confident IT skills, as you will be using an iPad to complete certificates and manage your diary.
- The ability to follow set policies and procedures.
- Assist in training and mentoring junior electricians as needed.

The 'nice to haves':

- BPEC Level 3 Solar & Battery
- NICEIC approved
- City and Guilds 2391 Inspection and Testing

What we can give in return:

- Performance related pay scales
- Fuel card & company van
- Uniform
- Pension scheme
- WPA private healthcare
- Flexible working
- 20 days' holiday plus bank holidays
- Gym membership
- Referral programme

Development opportunities:

- Ongoing training courses in new techniques and technology to keep you up to date
- Personal Development reviews quarterly
- Personal Targets
- Mentoring and training apprentices, developing leadership skills
